

Action

Handicare Hand Sanitiser

Composition	70% v/v Alcohols	
Uses	Handicare Hand Sanitiser has been formulated for professional and general use. Waterless, quick break antibacterial hand sanitiser gel/liquid to provide ease of application with thorough coverage and dispersion. Contains selected emollients to provide skin conditioning and support healthcare workers who are required to use repeatedly in the work place.	
Advantages	<ul style="list-style-type: none"> • Waterless hand sanitiser • Quick break gel/liquid for rapid dispersing on hands • Easy to dispense and set up in surgeries, clinics, hospitals and working environments either stand alone or using the simple bracket mount available • Formulated for rapid, effective sanitising of the hands in preparation or after risk events • Contains emollients to support repeated use and to be gentle on hands 	
Precautions	Do not swallow. Avoid eyes. If irritation occurs wash effected area and discontinue use. For external use only. Do not use on inflamed skin.	
Clinical Procedure	Apply Handicare Hand Sanitiser directly to hands. Dispense as much as required to completely cover hands using a good hand cleaning technique protocol. Rub hands together to form a lather, working the lather all over the hands, base of arms.
